

The Leisure Voucher Travel Club allows customers to tailor-make their dream break and choose from a wide selection of holidays in the UK and worldwide.

To make things even easier, the Leisure Voucher Travel Club site now features a live online holiday & flight search service. This live pricing system will issue customers with a unique reference code once they have selected their holiday options, which will be used to match their booking up with their vouchers.

Darren Ziff, Leisure Vouchers head of business development , said:

“We set up the travel clubs to offer travel advice and support for our customers who choose to book holidays with our vouchers. We’re pleased to add this new facility to the online travel clubs, saving time, money and energy for users.”
